Beskrivelse

Very fine Scania T143 6x4 crane tractor unit.

Originally driven in Germany as a tractor unit from 1993 until 1998 when our local trucking company bought it and had a brand new Effer 52N crane fitted in 1998 with 4 hydraulic booms reach 12.25 mtr lifts = 4000 kg double piping + associated jib with 4 booms where the reach = 23.15 mtr lifts: 1,110 kg + extra manual extension = reach 25.4 mtr mtr = lift 690 kg with associated radio control. Appears to be in original condition and regularly maintained - in 2021 the tractor unit received a cosmetic upgrade with paint etc. Option to purchase a 3450 mm long removable bed with hardwood bed base that can be mounted over the stool/chassis
